Having Professor Gillentine teaching a few lessons was a lot of fun. Professor Gillentine also was able to answer/add-on to any questions that came up in lectures.

2. What are the areas of improvement for this intern?

I can't really pinpoint an area of struggle that I saw from Professor Gillentine, perhaps more interaction with students, when possible, but as an intern in the course I felt he did a great job when it came to his interactions.

3. Do you feel that this intern helped you to develop as a counselor? If so, how? If not, how could they have contributed more to your development as a counselor?

I enjoyed hearing about Professor Gillentine's different therapy approach (solution focused), it was always great to hear his different take from the more common CBT approaches. CBT is such a common approach, hearing a new perspective made me want to look into different approaches that I may resonate better with as I continue my counseling journey, including solution focused.
