**Additional comments:**

**Jeremy did an amazing job this semester. He has been an invaluable asset to my students and brought a lot of great ideas and excitement to my sections. Jeremy was very motivated to engage in this process and went above and beyond what would be expected to gain as much experience as possible. He voluntarily attended my Monday night 505 class as well, which really benefitted those students as well. He was engaging, on-task, and prepared. His teaching demonstrations were well done and engaging. Jeremy was an outstanding intern that will do amazing things in his future career.**
